UNDER VEHICLE SEARCH MIRROR – PREMIER

Robust and lightweight, this trolley style Under Vehicle Search Mirror offers maneuverability and clarity at a low cost. The 30cm convex, acrylic circular mirror is perfectly clear and protected by a rugged plastic bumper, making it ideal for both indoor and outdoor use. With a low ground clearance, the mirror is mounted on a tri-wheel base with a pivotal movement mechanism for optimal visual adjustment. Featuring an extendable handle with six length options, this tool can be easily adjusted to the needs of the individual or job specification. The handle has a foam grip for user comfort and a removable LED torch enabling night searches. An effective and user-friendly design, this equipment is contained in a compact carry bag.
