

Valour Glove –Slash Resistant, with Puncture Resistance Tips For Extended Use

The Valour Glove is a new model, designed for those who need high levels of protection but also need something that they can wear for extended periods of time.

The Valour Glove is made from a combination of high-grade leather and Dyneema lining along the palm and fingers with Kevlar patches at the finger tips for an added layer of protection. It is comfortable to wear and more flexible than heavy-duty gloves.
