

# KLICK FAST Magnetic Mount

The **KLICK FAST Magnetic Mount** is one of our most versatile **KLICK FAST docks** and can be attached instantly to any piece of clothing and in any desired position. The ideal solution if you don't want a **KLICK FAST Dock** permanently sewn or screwed into garments.

Simply slip the back plate behind the garment or in a pocket and then place the front plate featuring the **KLICK FAST Dock** over the outer garment. 8 high-strength magnets will hold the mount firmly in place.

The **KLICK FAST Magnetic Mount** allows you to securely attach any **KLICK FAST-enabled** body-worn video camera, two-way radio or other device to clothing and utility vests.

## The KLIICK FAST Magnetic Mount features:

- A low profile - keeping the attached device as close as possible to the body;
- A small footprint - enabling it to be as discreet as possible beneath the device;
- In-built spacing between both mouldings - allowing fingers to slot in and easily detach the front and back plates from each other;
- A lightweight design;
- Two assembly-free, single mouldings that can be supplied with or without high-strength magnets (magnets are supplied already fitted);
- A choice of either a KLIICK FAST Dock located at the top of the mount or in the centre, depending on the position of your device's KLIICK FAST Connector.

Central KLIICK FAST Dock

# Key Data

## Specification:

- Dimensions:** 90 mm (3.54 in) x 75 mm (2.95 in) x 20 mm (0.79 in) - overall;  
Magnets: 20 mm (0.79 in) diameter x 5 mm (0.2 in) height. \*Self-sourced magnets must match these dimensions.
- Weight:** 144 g (5.08 oz) approx. with fitted magnets;  
45 g (1.59 oz) approx. without magnets.
- Material:** High-impact nylon in black with 8 x high-strength, rare-earth Neodymium magnets in black.
- Caution:** This product should be kept away from heart pacemakers. The operation of heart pacemakers will be affected by the close proximity of a magnet. Magnets can set a pacemaker working in a way that is not suitable for the user and that might affect their health.
